RESPIRE SERVICES

providing help • creating hope

Attention Nurses

Catholic Charities' Respite Services Program is searching for volunteer nurses to provide respite care for caregivers of the homebound in St. Lucie County.

This supportive program was created to fill the need to relieve caregivers who support those who are disabled, homebound, or elderly in St. Lucie County. Caregivers who receive these respite services are more likely to stay healthy and continue to care for their home-bound relative or friend.

Through the program, Registered Nurses or Licensed Practical Nurses in the St. Lucie Community help by:

- Volunteering 2-3 hours per week or 2x/Month
- Providing respite/companionship care (non-skilled care) for adults in their home.

If you are interested in volunteering, please contact:
Jill Chasse, RN Respite Nurse Coordinator, Catholic Charities
